

MarqueeToolBase

```
classDiagram
    MarqueeToolFunction ..|> MarqueeToolBase
    MarqueeToolTweak ..|> MarqueeToolBase
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'MarqueeToolBase'. Below it are two boxes: 'MarqueeToolFunction' on the left and 'MarqueeToolTweak' on the right. A dashed line connects the two bottom boxes, with a solid arrow pointing upwards from the center of this line to the bottom of the 'MarqueeToolBase' box, indicating that both 'MarqueeToolFunction' and 'MarqueeToolTweak' inherit from 'MarqueeToolBase'.
