

LassoToolBase

```
classDiagram
    class LassoToolBase
    class LassoToolFunction
    class LassoToolTweak
    LassoToolFunction ..|> LassoToolBase
    LassoToolTweak ..|> LassoToolBase
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'LassoToolBase'. Below it are two boxes: 'LassoToolFunction' on the left and 'LassoToolTweak' on the right. A dashed line connects the two bottom boxes, with a vertical line extending from its center to an upward-pointing arrow that terminates at the bottom of the 'LassoToolBase' box. This represents a generalization relationship where both 'LassoToolFunction' and 'LassoToolTweak' inherit from 'LassoToolBase'.
