

TransformToolBase

```
classDiagram
    class TransformToolBase
    class TransformToolFunction
    class TransformToolTweak
    TransformToolFunction ..|> TransformToolBase
    TransformToolTweak ..|> TransformToolBase
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'TransformToolBase'. Below it are two boxes: 'TransformToolFunction' on the left and 'TransformToolTweak' on the right. A dashed line connects the two bottom boxes, with a vertical line extending upwards from its center to an arrowhead pointing at the bottom of the 'TransformToolBase' box. This indicates that both 'TransformToolFunction' and 'TransformToolTweak' inherit from 'TransformToolBase'.
